

Private Ceremony packages

A private ceremony can be booked for one person or a small group of max 5 participants. We always work with at least 2 guides, myself (Merel) and another experienced guide, also when there is only 1 participant.

More than 5 participants

To offer the quality that we want to bring in a private ceremony, with 2 guides we welcome max 5 participants. If your group is bigger than that, a third guide will be included and fees adjusted.

Fees exclude:

- 21% BTW (tax)
- Travel costs
- Location rent, if applicable
- Food, if applicable

Location

A private ceremony can take place in your home if your space is suitable for us to work in. However, oftentimes a different location than your home supports disconnecting from your habits and opening up to new possibilities within yourself.

We are familiar with several suited locations for a private ceremony, located in a natural or quiet environment. You can spend the night at the location after the ceremony. Let us know if you are interested in renting a location.

Safe and beneficial participation

Your safety is our highest priority. Before the intake call, we will ask you to fill out an intake form, in which we check for contra-indications. We will only offer the ceremony when we know it is safe for you.

In our intake call we assess, together with you, whether you will benefit from having a truffle experience. If we think that having a truffle experience may not be in your best interest (at this time), we may advise you to engage with other kinds of inner work first, before joining a ceremony.
